

VACANCY:

Sonographer: Pretoria, Gauteng
(Full-time position)

Keystone Radiology is looking for an enthusiastic candidate to join the Keystone Team as a Sonographer at the following branch, Montana (full-time position, no afterhours, no public holidays and no weekends).

Workdays: Monday to Friday
Hours: 8:00 to 16:30
Leave: 22 workdays annual leave

The successful candidate will serve as an ambassador for Keystone by making patients feel welcome, and perform detailed and accurate ultrasound examinations.

Duties include, but is not limited to, the duties listed below.

Job Description:

- Performing general ultrasounds including abdominal and pelvic, musculoskeletal, and small parts.
- Performing vascular ultrasounds.
- Echocardiography is not a must, but may be beneficial.
- Compiling ultrasound reports for the radiologist to approve.
- Assisting with ultrasound stock control.
- Assisting with procedure and ICD-10 coding for ultrasounds performed.
- Support the mission, vision and core values of Keystone Radiology.

Requirements:

- Formal ultrasound qualification
- HPCSA Registration
- At least 3–5 years of work experience.
- Excellent skills in interacting with people in a positive and courteous manner.
- Strong written and verbal communication skills in English and Afrikaans.
- Ability to prioritise tasks according to importance in a fast-paced environment.
- Multi-tasking capability without compromising on quality.
- Basic knowledge of Microsoft Office applications.
- Valid driver's license (Code 8) with a reliable vehicle.

Additional Skills:

- Multi-tasking
- Time management
- Organization
- Attention to detail
- Professionalism
- Quality focus

Applicants can send their short, current Curriculum Vitae to Monice Cox at careers@ks-med.co.za, or contact us on 082 857 6974.

Closing date: 1st of July 2024.

Special addendum to the job description for a registered qualified Sonographer:

The employee may be required to perform ultrasound examinations as per qualification and as required by the practice.

The list of procedures which the employee may be asked to perform will fall within the published SCOPE OF PRACTICE OF DIAGNOSTIC SONOGRAPHERS as stipulated in the Government Gazette on 21 August 2020.

The required procedures will include the following, but may not be limited to:

Imaging – All diagnostic ultrasound procedures including, but not limited to:

- Abdominal ultrasound
- Gynaecological and obstetrical ultrasound
- Vascular ultrasound
- Echocardiography
- Musculoskeletal ultrasound
- Small part ultrasound, including scrotum, breast and thyroid/soft tissue neck ultrasound
